

START MOVEMENT IN U. S. TO FEED GERMAN CHILDREN

Gen. Allen, Former Army Of Occupation Commander, Announces Plan.

IMMEDIATE NEED IS FIVE MILLION

Funds Will Be Turned Over To American Friends Service Committee.

Chicago, Oct. 31.—Maj. Gen. Henry T. Allen, formerly commander of the American army of occupation, announced here today that a national committee had been formed to feed 2,000,000 children in Germany this winter. A fund of undetermined amount is to be subscribed at once.

Gen. Allen arrived in the forenoon from Washington to lay plans with Charles G. Dawes for the national campaign. Gen. Allen said acceptance had been received from approximately 100 of the country's men and women to superintend the campaign and turn over funds to the American Friends Service Committee (Quakers).

"Among other things that this work will accomplish," Gen. Allen said, "is the certainty that it will arrest Communism. Hunger and cold are the agents most destructive to morale. If a man has no breakfast and is cold beside, he is a dangerous animal."

"My recent visits to the Rhine convinced me of the necessity of immediate action to prevent wholesale starvation among German children. Even while we were in Coblenz we were feeding as many as 11,000 in army kitchens."

Never Warred On Children

"Regardless of the responsibility of present conditions in Germany, it must be remembered that America never waged war against innocent and helpless children."

"No financial goal has yet been set for this campaign. The needs may be greater than we now anticipate. The immediate problem of feeding 2,000,000 children in Germany this winter will require \$5,489,520. The feeding program will cover the period from Nov. 5 to April 15, actually 141 feeding days."

He estimated the cost of feeding each child at two cents daily under mass messing.

"Part of the cost," Gen. Allen said, "will be born by the German government which is co-operating in every way."

"It is well enough to say, 'Oh let Stinnes and other men in Germany who made money out of the war feed them,' but it won't work out."

"If we were in Germany's shoes and the rest of the world left our children to be fed by the Rockefeller's, the Fords, the Garys, Schwabs and other rich persons our plight would be bad for however great their wealth, it is not as great as the national wealth."

Claim Man Drove His Machine Into Shifter

Pennsylvania railroad officials claim their investigations have proved that Frank Lebus of near Greenford drove his auto into the shifter at the Neward station, crossing last Thursday evening and that the shifter did not back into the car. They also claim that the gates were not down and that the watchman did not know the shifter was going to cross the street. It has been reported that the auto was trapped and run down by the engine.

CONGRESSMAN SPEAKS AT TRAVELERS CLUB

Rotarians Hear Address By McSweeney, Plan To Attend Minstrel.

John McSweeney of Wooster, congressman from the 16th Ohio district, held the close attention of the members of the Travelers club Tuesday afternoon when he spoke at a meeting of the club in the Chamber of Commerce rooms.

Congressman McSweeney reviewed much of historic interest leading up to the idealism of America, the country blending all of the good and higher things of the old world. Mr. McSweeney stressed the fact that America seemed to possess the divine guidance and blessing of God and that while it should not rule the world through dominion it should rule the world in spirit and inspiration.

That the spirit of well being, content and friendship should spread from home to state from state to nation, and from the shores of our nation to those countries of belated progress and civilization, was the hope he expressed.

NEW PLANT TO ELIMINATE OLD WATER BASINS

Soft Water To Replace Hard Sulphur Water While Adequate Supply And Elimination Of Costly Operation Will Result.

In previous articles on the water situation it has been pointed out where large sums of the revenue have gone to the well system of supply. In the past five years it is estimated that each year upwards of \$27,000 per year can readily be charged to supply, with an extra charge of \$5,000 for the year 1920-21 or a total of upwards of \$140,000.

This does not represent funded debt but expense borne by the revenue of the waterworks department or approximately 40 per cent of the total income of the said department.

This estimate is arrived at from the following items of expense enumerated in previous articles: Operation of the supply part of pumping station, \$17,500 per year; that portion of bond issues of 1916-1918-1921 used upon supply, the interest thereon and the bonds retired, \$9,000 per year; maintenance of machinery employed in supply at pumping station, \$5,000 per year; total \$140,000.

Some Of Advantages

This represents in five years nearly one-half of the cost of the first step in the Cold Run project. It is evident, however, that the completion of Cold Run will not save the whole of this annual expense. The bond issue of 1916-1918-1921 will have to be retired or \$9,000 per year. The operating expense of Cold Run will increase over the present cost of pumping of water into the mains of approximately \$4,500 per year. But by eliminating pumping from wells it will save \$13,500 per year or one-half our present outlay.

In reviewing the advantages of Cold Run project at completion the following items are noted:

Elimination of the present unsatisfactory basins.

Elimination of the present costly replacement of our present sulphurous water with soft water, an item not much discussed in the past but one of merit to both housewives and manufacturers.

An adequate supply.

Effect Of Chlorine

At this time it may be well to correct some misinformation regarding the use of chlorine. It has been said that the Cold Run project contemplated the elimination of chlorine; however this is not the case.

There is much misinformation also regarding the use of chlorine. Chlorine is a liquid; exposed to the air it rapidly becomes a gas. From 2 1/2 to 4 pounds are used each day in 1,600,000 gallons of water.

It does not make the water hard as many think. The cause of this misconception is the additional use of sulphurous water. At the time chlorine was first installed a new well was developed at Zellefeld, increasing the percentage of sulphurous water.

At the time Prospect wells were put in operation the chlorine content was

boosted. This water is sulphurous; chlorine was blamed again.

Chlorine has a property of uniting in oxidation with any organic matter, the remainder not so oxidized remaining in solution. However, water that is exposed to the air rapidly loses all trace of chlorine by evaporation.

Therefore water coming from Cold Run, passing into 3,000,000 gallon distribution reservoir and thence to city, will lose at the reservoir all trace of chlorine.

MAN HIT BY TRAIN DIES IN HOSPITAL

Fractured Skull Is Fatal; Effort Being Made To Locate Relatives.

Within a few hours after he had been admitted to Salem City hospital Tuesday, William S. Jewell, 39, died at 5 p. m. Tuesday of concussion and fracture of the skull.

The dead man was the victim of an accident while working as a section man for the Pennsylvania railroad company at Columbiana shortly before noon Tuesday. He was struck when a passenger train approached Bell's crossing near Columbiana. Fearing that he could not live the man was rushed to Salem in an ambulance where all efforts failed to prevent his death.

Mr. Jewell had resided in Columbiana for the last two weeks and little or nothing is known concerning him. His landlord claimed that Mr. Jewell seemed not to care to discuss himself or family and the only reference made giving a clue to his identity was a statement to the effect that he was born in Shelby.

Wick Fry, Columbiana undertaker, immediately phoned the Shelby police department the officers of which are endeavoring to trace relatives.

Until word is received from Shelby the body will be held at the Fry undertaking rooms at Columbiana, pending funeral arrangements. Providing no relatives claim the body, it will be buried in Columbiana.

THE DAY OF REAL SPORT

Hallowe'en Spirits Active Tuesday Night; Stage Set For Celebration Tonight

Hallowe'en spirits seemed very active Tuesday night and many citizens found part of their properties in various places in the city Wednesday morning. Pranks of boys always looked for night before Hallowe'en were not of the variety of yore and little damage was done.

It was one of the quietest "corn nights" in the history of this city. Police did not receive a call and most of the escapades of cell-ranters of these ghostly nights of fun confined their activities to minor things.

Wednesday night is the main Hallowe'en celebration. Tonight Salem will turn out en masse to join in the Mardi Gras and mystic worship at the feet of witches and black cats and all those other characters associated with Hallowe'en.

Wild and fantastic shapes, funny costumes, unique outfits, all will be noted among the ranks of masqueraders who will take part in the carnival of the American Legion.

The parade of numbers is scheduled to start at 7:30 p. m. sharp from the public library on McKinley ave. Maskers are urged to be in their places at 7 so the different divisions of the parade can be formed early. The procession will move west on Main st. to Depot south to Pershing, east to Broadway, north to Main and east to Garfield where the parade will disband.

STRESSES VALUE OF FRIENDSHIPS

McSweeney Makes Plea For Higher And Nobler Things In Life.

The value of friendship in better understandings among men and in community progress was emphasized by Congressman John McSweeney of Wooster in an address before the Rotary club Tuesday noon at the Elks home.

McSweeney, a veteran of the World war and second youngest member of congress, is a nephew of W. H. Mullins, whose guest he is while in the city. He was introduced to the club by Vice President W. H. Dunn presiding in the absence of President F. J. Emery.

"If I had a text today it would be 'Behold how pleasant it is for brothers to dwell together,'" declared Cong. McSweeney in speaking of friendship. He pointed to the friendly feeling existing between business competitors today and the opportunity they have in this manner to understand their fellow men better.

"The Rotary and Kiwanis clubs are working along parallel lines and I hope they may converse at a common point and reach their goal," he said. He commended the Rotarian for helping boys and girls who are handicapped mentally or physically and urged that words of encouragement be given young men who are making an effort to succeed.

C. E. Reed of the Youngstown Rotary club invited the Salem Rotarians to attend the Rotary minstrel show to be given in the Park theater Youngstown, Friday night and Saturday matinee and night, Nov. 9 and 10. Next Tuesday J. S. Alan will have charge of the program.

ACCUSE ROBERTS OF ILLEGAL RAIDS IN WEST VIRGINIA

Klan Official Is Held To Await Action Of The Grand Jury.

Richard E. Roberts, former newspaper man and now secretary of the Hancock and Brooke county Ku Klux Klan organization in West Virginia, who was arrested Tuesday night in Chester, W. Va., for making an illegal arrest contrary to the West Virginia state laws, waived hearing Wednesday morning when arraigned in the court of Justice of the Peace A. G. Allison and was bound over to the Hancock county grand jury under \$1,000 bond.

J. P. Hamilton, Congo, and Rev. E. V. Huffer, Newell, klan of the Klan in the two counties, signed the bond. Roberts was released from jail where he had spent the night.

Acting Chief of Police Roy Bartley arrested Roberts on a warrant sworn out by Archibald Daltymple, Chester, son of the former mayor of that town. The warrant alleged that Roberts seriously violated the West Virginia state laws by taking part in raids in that state when not a resident of the state.

Roberts is accused of specifically participating in three raids contrary to law. The raids were part of the Klan's efforts to enforce the Sunday closing "blue laws" in Chester and also selling liquor in homes. Roberts reportedly resided in Salem.

STATE ATTORNEY WARNS AGAINST DOLLINGS FRAUD

Bushnell's Recent Dealings With Stockholders Are Denounced.

LOCAL INVESTORS BELIEVED VICTIMS

Charged Fee Of 25 Cents a Share On Promise Of Recovery.

Failure of the Dollings company has unleashed a new fraud upon the Ohio public in the form of a man who professes ability to help stockholders of the defunct concern according to charges made public here Wednesday.

Warning against the scheme was received Tuesday by Jesse C. Hauley, prosecuting attorney, from Attorney General C. C. Crabbe at Columbus.

According to the attorney general of Ohio, the man who has been working among stockholders of the Dollings securities has reaped a harvest of thousands of dollars in the last two weeks since he first announced his desire to get in touch with them.

A few weeks ago John A. Bushnell, purported to be chairman of the Dollings' Stockholders' Protective committee, Columbus, wrote to several Salem stockholders of the defunct company and its subsidiaries.

Part of that letter read: "Stockholders are requested to write to J. A. Bushnell 205 Martin building, Columbus giving the names of the companies in which they hold shares, name and address at present of salesman from whom the stock was purchased and also circumstances under which the purchase was made."

Many stockholders it is reported, gladly complied with the result that Bushnell was the recipient of thousands of dollars—for Bushnell added that a service fee of 25 cents on each thousand shares would be necessary.

Crabbe's Letter

Here is in substance the text of the letter from Attorney General Crabbe: "I desire to call your attention to the activities of one John A. Bushnell of Columbus, who claims to represent the stockholders of the R. L. Dollings company. I am confident that the records will show that Mr. Bushnell was not a Dollings' stockholder but secured a few shares of stock for the sole purpose of organizing a committee and thus commercializing the situation. Although he claims to be a relative of Gov. Asa Bushnell, Mr. Bushnell, Jr. of Springfield called me (Continued on sixth page.)"

Artificial Gas

THERE are few now living who can not recall the days of artificial gas. It is not so long ago that the natural product was introduced into the homes of Salem and elsewhere in the central west. Yet, the warning already has been sounded that nature's supply is near exhaustion and that a return to artificial gas is inevitably near. Conservation of the former has been urged for a long time and now comes a warning that this conservation must take the form of a combination with manufactured gas so as to postpone the day of the exhaustion of nature's resources.

This is no idle warning. It is given by no less an interested party than the Ohio Gas and Oil Men's association. A committee is being formed to consider the crisis. It is to act on the recommendation of the department of mines and metallurgy of the Ohio State university "that the entire state be placed, as rapidly as possible, on a basis of manufactured gas enriched by a mixture of natural gas." Ohio's production of natural gas has so declined that the state has dropped from fourth to fifth in rank in producers, although it holds first place as a consumer of it.

The situation is an unpleasant one and fulfillment of the prediction of the not-distant exhaustion of natural gas would produce much inconvenience. It will be almost a retrogression of progress to go back to artificial gas with its high cost of production and consequent higher cost to consumer. This is one of the penalties that must be paid for the reckless waste of the natural product in the early days of its production and introduction among the present-day conveniences—a waste that has shortened the life of nature's reservoirs and brought near the day of practical exhaustion.

Churchgoing Presidents

PRESIDENT COOLIDGE, who, during all the years of his public life has been a regular church attendant, has become a member of a religious denomination. This formal action is in line with both his training from childhood and his personal inclinations as evidenced in his public addresses and his private devotions.

Of the presidents of the last quarter century, William McKinley was an active churchman, Theodore Roosevelt sought out the church of his own faith wherever he was, to attend it and repeatedly emphasized the necessity of churches and the wisdom of church attendance. "The community without churches," said Mr. Roosevelt at one time, "is on the verge of disaster."

William Howard Taft is one of the leaders of the Unitarian denomination. Woodrow Wilson is a Presbyterian elder, and recently has stirred the Christian world with an article, the only one written since his retirement from the presidency, on the need for a re-statement of spiritual values. The last public message of Warren G. Harding read for him while he was on the death bed, was a pronounced religious document. Calvin Coolidge, on his way to the White House, stopped to pray at his mother's grave.

Whatever corrupt elements have entered public life in this country, they never yet have touched the presidency. It is more than a coincidence that strong religious feeling should be characteristic of the nation's presidents. They properly reflect the best in American life, and the impulse which guide them are a challenge to the rest of us.

Lincoln Was a Whittier.

Whittier sticks and telling stories were Abraham Lincoln's resources. Bismarck's wife, when Beethoven's "Moonlight" sonata was being played, noticed the first tear in his eye, and felt "He is not so hard as he seems," and "passionate, heroic music" made his recreations, side by side with hunting in youth, long country drives in old age, conversation and his pipe. The Reform Earl Grey had a passion for dancing, and, as premier in the midst of a political crisis, cried out one night at 10 Downing street, "What would I not give to dance like Tagliani!"

That Body of Yours

SPINDLES

A physician with a patient stripped before him for examination, suggested that the latter should not tell him his occupation but allow him to guess.

Well, said the physician, you ride a great deal in your motor car do you not?

No, the patient replied, I don't own a car, and seldom ride in one. The doctor said, "I'm beaten, what's your occupation?"

Why I'm a tailor and have worked at it for nearly 20 years.

The physician laughed and said, "I figured that you sat a great deal and used your legs very little, because your abdomen is protruding and your legs are almost like spindles."

Anyone familiar with the crossed legged posture of the tailor as he works, can understand just what would happen to his body with that kind of work and no other.

And what's the lesson?

Singly that we ride so much and sit so much that we are changing our shape.

If we are not careful we are going to look like the pictures in the children's books, of men with large abdomens, and tiny arms and legs. Now the motor car is here to stay the elevator also, and every other labor saving device. We cannot go backward. The pleasure of motoring will never really die out, but that body of yours was not intended to use automobiles, elevators and so forth all the time. Your bones and muscles are huge and were meant for work. You were given a stomach, intestines, lungs, and heart capable of great effort.

You were presented with an appetite that would encourage you to take on board the necessary amount of food to supply these muscles and bones. It would appear that with the variety and excellent cooking of food you were retaining your appetite and yet not using your body. Now you will not give up your motor car. It is not a luxury now it is a necessity. So if you are wise you will make sure of taking a walk of a mile or two every day.

If you can't take a walk, you can raise on your toes, 15 times, and sit or squat 15 times night and morning. This will keep your legs from becoming spindles. This, with a few bending exercises for your abdomen will prevent you from ever resembling pictures in the children's books.

Ford THE UNIVERSAL CAR

New Roadster

Business men—with whom the runabout has always been very popular—are well pleased with the changes embodied in this model. Always rugged, the car has been made decidedly trimmer and more comfortable.

This result is obtained by raising the radiator and enlarging the cowl; making a decided improvement in looks and providing more leg room.

A well designed top and slanting windshield do their share toward adding a finished, clean-cut appearance.

Make it a point to see the other new models also on display in the nearest Ford dealer's show room.

These cars can be obtained through the Ford Weekly Purchase Plan.

KIN OF NAPOLEON INGRATES

His sister Pauline Alone Was Faithful to the Emperor to the End.

With one exception Napoleon's brothers and sisters proved to be incompetent, ungrateful, or openly his foes. Napoleon made his eldest brother, Joseph, king of Spain, and Spain proved almost as deadly to him as did Russia.

He made his youngest brother, Jerome, who deserted his American wife at the behest of Napoleon, king of Westphalia, says the Detroit News, and Jerome turned the palace into a pigsty and brought discredit on the very name of Bonaparte. His brother Louis, for whom he had starved himself, he placed upon the throne of Holland, and Louis promptly devoted himself to his own interests, conniving at many things which were inimical to France. He was planning high advancement for his brother, Lucien, when Lucien married a disreputable actress and fled with her to England, where he was received by the most persistent of all Napoleon's enemies.

Napoleon's three sisters have been styled "the three crowned courtesans." He made Elsie a princess in her own right, and gave her the grand duchy of Tuscany. He married Caroline to Marshal Murat, and they became respectively king and queen of Naples. Caroline urged her husband to turn against his former chief, and Elsie threw in her fortunes with the Murats. For Pauline he did very little, yet she alone stood by him to the end. He gave her a marriage dowry of half a million francs when she married the Prince Borghese.

367,096 OHIOANS MADE INCOME TAX RETURNS IN 1921

No Ohioans Exceed \$750,000 In Earnings In Year, List Indicates.

Washington, Oct. 31. — Although 367,096 Ohioans paid personal income tax in 1921 not one of them paid on an income of more than \$750,000 annually according to detailed figures announced by the treasury department.

Only four Ohioans reported incomes between \$600,000 and \$750,000 while only 93 were fortunate enough to earn in excess of \$100,000 a year.

Net income on personal earnings of Ohioans for 1921 is given as \$1,960,927.926 of which exemptions totaling

\$805,657,500 were claimed. Total taxes paid through earnings that year was \$33,574,994.

Nearly one-third of Ohioans paying income taxes reported earnings between \$2,000 to \$3,000 and most of these claimed sufficient exemptions to escape taxation.

In the larger brackets beyond \$10,000 there appeared to be more \$15,000 to \$20,000 men than other classes of earners. There were 1,885 in this class against 1,050 earning between \$11,000 and \$12,000 annually.

Four hundred and thirty-nine Ohioans reported incomes between \$50,000 and \$100,000 a year, while 52 reported between \$100,000 and \$150,000.

Ohio returns in 1921 showed effects of the business slump during 1920. There were but 367,096 returns against 447,998 for the year before and the net earnings showed a loss of approximately \$350,000,000.

The government got but \$33,574,994 in taxes against \$56,285,168 the year before while the average tax per return produced but \$91 against \$126 the year before.

GRAIN AND DAIRY PRODUCTS HIGHER

Livestock Prices Decline,
Milk, Butter Higher
Than Year Ago.

Columbus, Oct. 31.—Grain, hay and dairy products in Ohio are higher than a year ago, according to a report made public today, by C. J. West, state-federal crop statistician.

Live stock prices have declined since September and are decidedly lower than a year ago with hogs 89 cents below last month and \$1.39 below last October. Cattle prices declined 15 cents a hundred in the past month, with the average price now standing at \$6.50, almost exactly the market a year ago.

Lamb and mutton prices remain practically the same as last year and last month, West said.

Milk and butter are selling at about 25 per cent higher than last year. Country eggs averaged 38 cents a dozen October 15, and poultry 19 cents a pound, which is about the same as a year ago, according to West.

Whole grain prices to the farmer are definitely above those prevailing a year ago. Hay averaged \$2 a ton above last month and \$5 above last year at this time, West pointed out.

It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. ANTI-KLAN RIOTS WILL BE PROBED

Steubenville, Oct. 31.—That a special grand jury conducted by state officials would convene here within a short time to investigate the anti-Klan rioting on August 12, was the statement today of Attorney Lee Van Tilburg, official Klan legal representative.

This statement followed on the heels of the filing of 19 affidavits against prominent persons charging them with rioting and also against seven persons charged with illegal voting at the August primary.

The grand jury, Van Tilburg declared, will not only investigate the rioting and election irregularities but will probe the general lack of law enforcement, the bombing of several dry agents' homes in Jefferson county and other matters which he refused to reveal.

HINES TESTIFIES IN BUREAU PROBE

Washington, Oct. 31.—The senatorial investigation of the U. S. Veterans bureau, which has been concerned for the most part with activities of former Director Charles R. Forbes, came sharply today to recent events today when Brig. Gen. Frank Hines, the present director of the bureau, took the stand to tell of expenditures in connection with the establishment of a veterans' hospital at Livermore, Cal.

Government records show the bureau paid Lucien E. Johnson of San Francisco \$105,000 for the property and the American Legion charged that \$25,000 of this sum was never accounted for by Johnson. Through a rehabilitation committee, the Legion also accused bureau officials of "gross waste and inefficiency" in carrying out the transaction.

GOOD HEALTH SECRET OF BEAUTY

Beauty lies in the care a woman bestows upon herself and in keeping at bay those dread ailments peculiar to her sex which drag her down and leave telltale traces upon her countenance. Sparkling eyes the elastic step and a clear complexion never accompany organic troubles. Distressed expressions a sallow complexion, dark circles under the eyes, lassitude, headaches, and mental depression are the telltale symptoms of women's ailments. Women so troubled should not lose a day in taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, the most successful remedy known to overcome woman's ills and restore health and beauty.

What we call liberality is often but the vanity of giving, which we like more than what we give.

PLANS SURPRISE GIVES SHOCK

Lawrence, Mass., Oct. 31.—Marie McGilvery, 8, put on a new Halloween costume to surprise her mother and father. It was dark in Marie's house and she struck a match to guide her to the front hall where mother and dad were to enter the house.

Flames ignited the flimsy Halloween gown. It was burned from the child's body.

Mr. and Mrs. Alexander McGilvery opened the door ready for their "surprise."

Horror took the place of smiles. Their little girl was lying in the front hall—dead.

STATE ATTORNEY WARNS

Continued from First page
this morning and denied any relation to or knowledge of John A. Bushnell of Columbus.

"There is a stockholders' committee, composed of prominent men and women who were originally stockholders of the Dollings company of which Judge B. O. Bistline of Bowling Green is president. This committee was organized for the mutual protection of the stockholders and not for the purpose of profit.

"Although but little can be learned as to the past record of John A. Bushnell of Columbus, I find that he has been living for a few months at the Northern hotel, Columbus, and has resided in numerous cities outside of this state. He is carrying on an extensive campaign of letter writing and holds out false hope to the stockholders. He also claims to represent them in the winding up of the affairs, and states finally that when his plans are carried out, their stock will again be placed on the market and sold at par.

"He adds that this can only be done if each stockholder will contribute 25 cents per share on all stock owned. Thousands of dollars have already been collected by him and I will say frankly that he has no standing in court, is not a lawyer, and my best information is that his scheme is to collect money and will be of no service whatsoever to the people." The recent failure of the Dollings company, throwing to the scrap-heap shares in other subsidiary concerns created wide interest in Ohio and the wide manner in which shares in those companies were held offered a fertile field for the machinations of anyone willing to capitalize the misfortunes of stockholders.

BRINGING UP FATHER

COMB SAGE TEA IN
HAIR TO DARKEN IT

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand-mother's recipe, and folks are again using it to keep their hair a good, even color which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays though we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft luster and appearance of abundance which is so attractive.

COLUMBIANA

Wilbur Furman, East Park ave., entertained Friday evening a company of his school friends at a masquerade Halloween party. Many curious looking costumes made up the torgery of the young folks.

Master James Hetrick celebrated his fifth birthday Friday by entertaining 12 of his playmates. The parents, Mr. and Mrs. Ira Hetrick, did all that was necessary to make the occasion a great success and the little tots will not soon forget the birthday party at the home of their little friend. Presents and refreshments featured the occasion.

The W. C. T. U. held a meeting Friday at the home of Mrs. W. B. Reed at the Square. Ten members of the union were present in effecting a new organization for the year Mrs. Reed was made president; Mrs. G. W. Peters, vice president; Mrs. Oris Hoffman, secretary. Monthly meetings will be held during the winter and a cordial invitation is extended the women of the community to come to the meetings.

Mr. and Mrs. Keintruch of Greenford, announce birth of a daughter last Wednesday. Mrs. Keintruch was formerly Miss Esterly of Columbiana. W. T. Holloway was confined to his home several days on account of the grip.

Mrs. Louis Deemer and daughter, Elsie, were in Youngstown calling on friends Tuesday and Wednesday. James G. Potter representative of the Swarthmore chautauqua, left Columbiana Saturday. He failed to place a contract for the chautauqua next year in Columbiana.

Russell Beverly and Henry Coblenz were calling on the boys at the Signa Nu house in Mt. Union Wednesday.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you that ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities. Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

Sunday with Mr. and Mrs. Charles Ellyson.

Mr. and Mrs. Fred Israel, entertained at a 6 o'clock dinner Monday night in honor of their son Clinton, of Clarksburg, W. Va. The guests were Mr. and Mrs. W. D. Armstrong, Mr. and Mrs. Rex Israel, Mr. and Mrs. G. Reher and Miss Grace Cochran.

STATE EMPLOYEES
ROUTED BY FIRE
IN OHIO CAPITAL

Columbus, Oct. 31.—Between 500 and 600 state employees vacated the six story Ohio building at Fourth and Main streets, formerly the Hartman hotel, in seven minutes late Tuesday after an alarm had been sounded when fire broke out in the basement.

No one was injured nor was there the slightest degree of panic shown. Huge billows of smoke engulfed the building for more than an hour creating the impression that a disastrous fire was imminent. The flames actually gained little headway, however, and damage was confined principally to destruction of part of the winter's coal supply and numerous records of various departments stored in the basement.

The fire originated in the developing room, used by the state architect and his staff, probably through the blowing of a fuse.

It is not believed the loss will exceed \$15,000.

Most of the "rum-running" seems to be done by those who want some of the stuff.

ADVANCING years should not mean the approach of a period of dependency—of crutches and canes—of worry, care and fatigue!

Don't dread the days ahead! Be prepared to grapple with the he-men of Old Age—with rheumatism—with undermined health—with feebleness. The system that is free from impurities—through which rich red blood tingles—need not worry about advancing years. Enlist the aid of S. S. S.—the builder of red blood cells—to fight off the infirmities of Old Age.

With the aid of S. S. S. when you reach this stage of life the nerve power that has been built up by ever increasing blood cells—the vim and vigor of youth that you possess will capably enable you to enjoy the advantages of passing years, while others less fortunate are feeble and dependent.

S. S. S. for nearly a century has been serving as a valuable and time honored assistant in the fight for hale and hearty Old Age. It is made only of pure vegetable ingredients and is sold at all good drug stores.

The large size bottle is the more economical.

THEATRES

"Strangers of the Night"

Enid Bennett, the beautiful Maid Marion of "Robin Hood" fame, and the puritanical Priscilla who gives Miles Standish a share as story as Plymouth Rock in "The Courtship of Miles Standish," has surpassed all of her previous characterizations in the dual role of the cabin boy on the pirate ship, and the demure little British lady in "Strangers of the Night," the picture adapted from the famous "Captain Applejack," to be shown Thursday, Friday and Saturday at the High school auditorium. Miss Bennett's rise to fame has been rapid. She started her stage career in Australia playing in "The Whip," "The Fortune Hunter" and "Seven Keys to Baldpate." Turning to motion pictures she starred in the "Keys to Righteousness," "The Biggest Show on Earth," "A Desert Wooing," and other photoplay successes, 18 of which were produced under the direction of her husband, Fred Niblo.

"Strangers of the Night" was adapted for the screen by Bess Meredyth from Walter Hackett's stage play, "Captain Applejack." It is presented by Louis B. Mayer, directed by Fred Niblo and distributed by Metro.

Isle of Lost Ships

With an all-star cast, which includes Milton Sills, Anna Q. Nilsson, Frank Campeau and Whiter Long, "The Isle of Lost Ships," a First National attraction directed by Maurice Tourneur and produced by M. C. Levee is coming to the State theater Thursday. Crittenden Marriot wrote the story which is declared to be one of the most unusual ever seen on the screen.

With the poetic touch which characterizes all Maurice Tourneur productions, this novel story has been picturized in a weirdly realistic and beautiful manner. Lovers of the unusual and picturesque will find "The Isle of Lost Ships" one of the most diverting pictures ever shown here. One of the most exciting scenes in the picture shows the escape of the hero and heroine from an "island of ships" in the Sargasso sea by means of a submarine, which had also been added to the "island" by the action of the elements. Interior "shots" of the undersea boat furnish remarkable effects.

Air Jets.

A plan to abolish the propellers of airplanes is the subject now of laboratory research. Air compressed and mixed with fuel in a combustion chamber would be projected through a nozzle at the rear of the airplane, and the reaction of its discharge would drive the machine through the air. Though it is calculated that high speed might possibly be obtained through this method of jet propulsion, the mechanism would be heavy, and experiments so far show that the consumption of fuel would be in excess of that required for ordinary propeller drive.

Get Away Faster

With the "Extra Power" Motor of the New Five Passenger Sedan

REGARDLESS of the fact that this popular Cleveland model has a reputation for great durability, comfort and economy, a large part of its popularity can be directly traced to the amazing performance qualities of the new "extra power" motor under its hood.

This new motor is the outstanding engineering achievement in the light six field. It is more compact

than the motor of the average light six, yet it develops from 16% to 30% more power between 10 and 35 miles an hour.

That's why the Cleveland Six shoots out swiftly ahead in traffic—why it passes bigger and costlier cars on hills with an ease that is almost unbelievable in a closed car so moderately priced and so sturdily constructed.
